FEATURE & BENEFITS

Formulated and manufactured using raw materials and methods to promote sustainability and safety for people and the environment.

- Bactericidal and fungicidal** – promotes health and safety creating a cleaner and healthier working environment.
- Concentrated** – reduces cleaning costs and transport costs, consequently minimising emissions therefore benefitting the environment.
- Biodegradeable** - will not harm the environment.
- Effective** – can be used at high dilution rates whilst still retaining its bactericidal and fungicidal properties.
